Interactive books	Yes	All ages	Reduce, rotate and clean regularly	More frequent wash and rotation in babies

Resource	Yes/No	If yes what age range	Safety management	Comments
Puppets	Yes	All ages	Rotate and wash daily	More frequent wash and rotation in babies
Soft toys	Only if washing will not affect their safety i.e parts might loose.	All ages if needed (good for SR and wellbeing) Consider perhaps not having them readily available but bring them out as needed.	Must be cleaned daily. Be mindful that it will not always be practical to put in washing machine daily. Consider reducing dramatically so that rotation allows for this. Particularly for babies who will dribble on them and put them in their mouths	
Malleable and creative				
Sand play	No (England) Yes (Scotland)	Older children not babies	Large sand trays can be used or individual containers. No sand play on the floor at this time. All sand resources must be cleaned daily and the edges of the sand tray must be wiped down daily	If a child sneezes or dribbles/spits in the sand this will be replaced as soon as is practicable.
Playdough	Yes	for older children, not for babies	If being shared in a group this must be discarded daily. Labelled tubs for individual children can be kept for a little longer if well supervised.	Tools and utensils must be washed daily.
Water play	Yes	Older children who will not drink the water. Water can be in a large tray for up to 4 or in small containers for individual play.	Water to be changed sessionally. If a child sneezes or coughs in the water, replace the water as soon as practicable	Soapy water would improve the hygiene (use approved soap for children)
Tools and utensils for malleable play	Yes	Risk assessment	Reduce, rotate and clean regularly	
Painting activities	Yes	Risk assessment	Paint and brushes to rotated and washed regularly.	Ensure easels are wiped down daily
